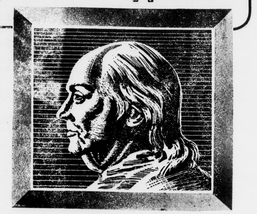
SUCH SAVING WAYS



THRIFT WEEK . . . inspired by the birthday of the frugal Ben Franklin . . . and we're sure that this reverend America would agree that the modern way has SAVING ways:

Of course it's electric!

TODAY, in spite of rising costs of living, the average family in VEPCO-LAND gets twice as much electricity for its money as 20 years ago. In addition, good electric equipment means big savings in indirect ways:

The low cost and efficiency of ELECTRIC SPEED COOKING, reduced meat shrinkage, can reduce the average family's cooking costs!

The extreme cleanliness of ELECTRICAL HOUSEKEEPING reduces cleaning expenses on draperies, upholstery, rugs, walls!

A good ELECTRICAL REFRIGERATOR permits quantity buying, better use of leftovers, reduces spoilage!

And—WELL BEING is priceless. The possession of health and happiness is guarded and immeasurably increased by electrical living!
